Our 17 year history assures best practice in privacy, security and the ethical use of data

Privacy

- We have built our business based on privacy by design principles for the past 17 years
- Quantium has strict protocols around the receipt and storage of personal information
- All information is de-identified using an irreversible tokenisation process with no ability to re-identify individuals.

Security

- We are ISO27001 certified - internationally recognised for our ability to uphold best practice standards across information security
- We use 'bank grade' security to store and process our data
- Comply with 200+ security requirements from NAB, Woolworths and other data partners
- All partner data is held in separate restricted environments
- All access to partner data is limited to essential staff only
- Security environment and processes regularly audited by our data partners.

Ethical use of data

Applies to all facets of our work, from the initiatives we take on, the information we use and how our solutions impact individuals, organisations and society.

We all have a responsibility to use data for good

Quantium believes in using data for progress, with great care and responsibility. As such please respect the commercial in confidence nature of this document.

Executive summary

01 Task 1

- Customer analysis of chip purchasing behaviour revealed that budget older families , Mainstream young singles/couples and Mainstream retirees are the top contributing segments to the chip sales.
- Kettle chips was the most popular brand and 175g was the most purchased pack size.

02 Task 2

- A store trial was conducted in stores 77,86 and 88 to evaluate the impact of new store layout on chip sales.
- All 3 trial stores showed significant sales uplift compared to their control stores.

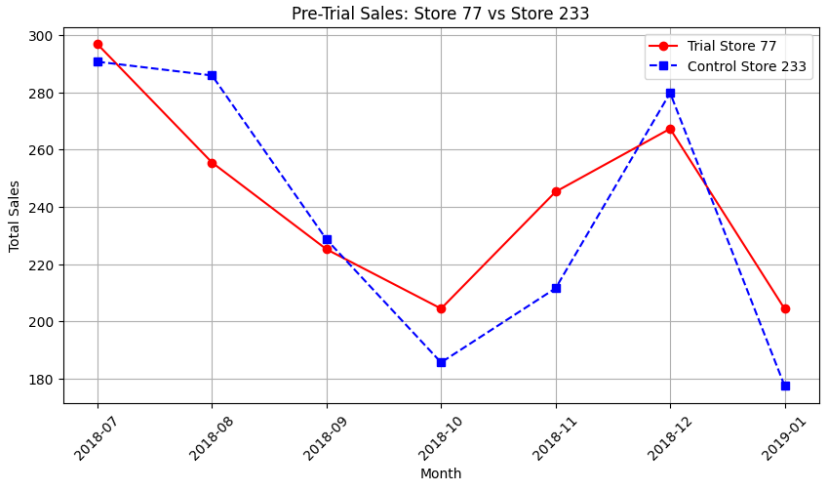
02

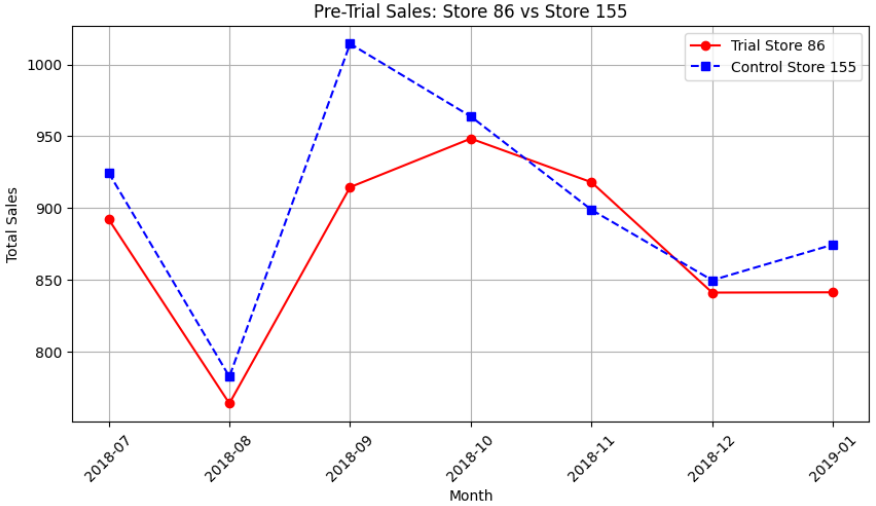
Trial store performance

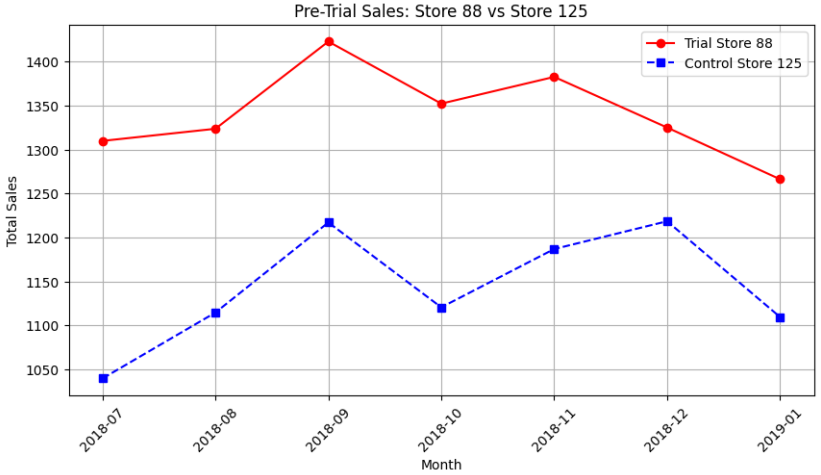
quantium

Classification: Confidential

Each trial store was matched with a control store based on similar sales patterns before the trial period began.



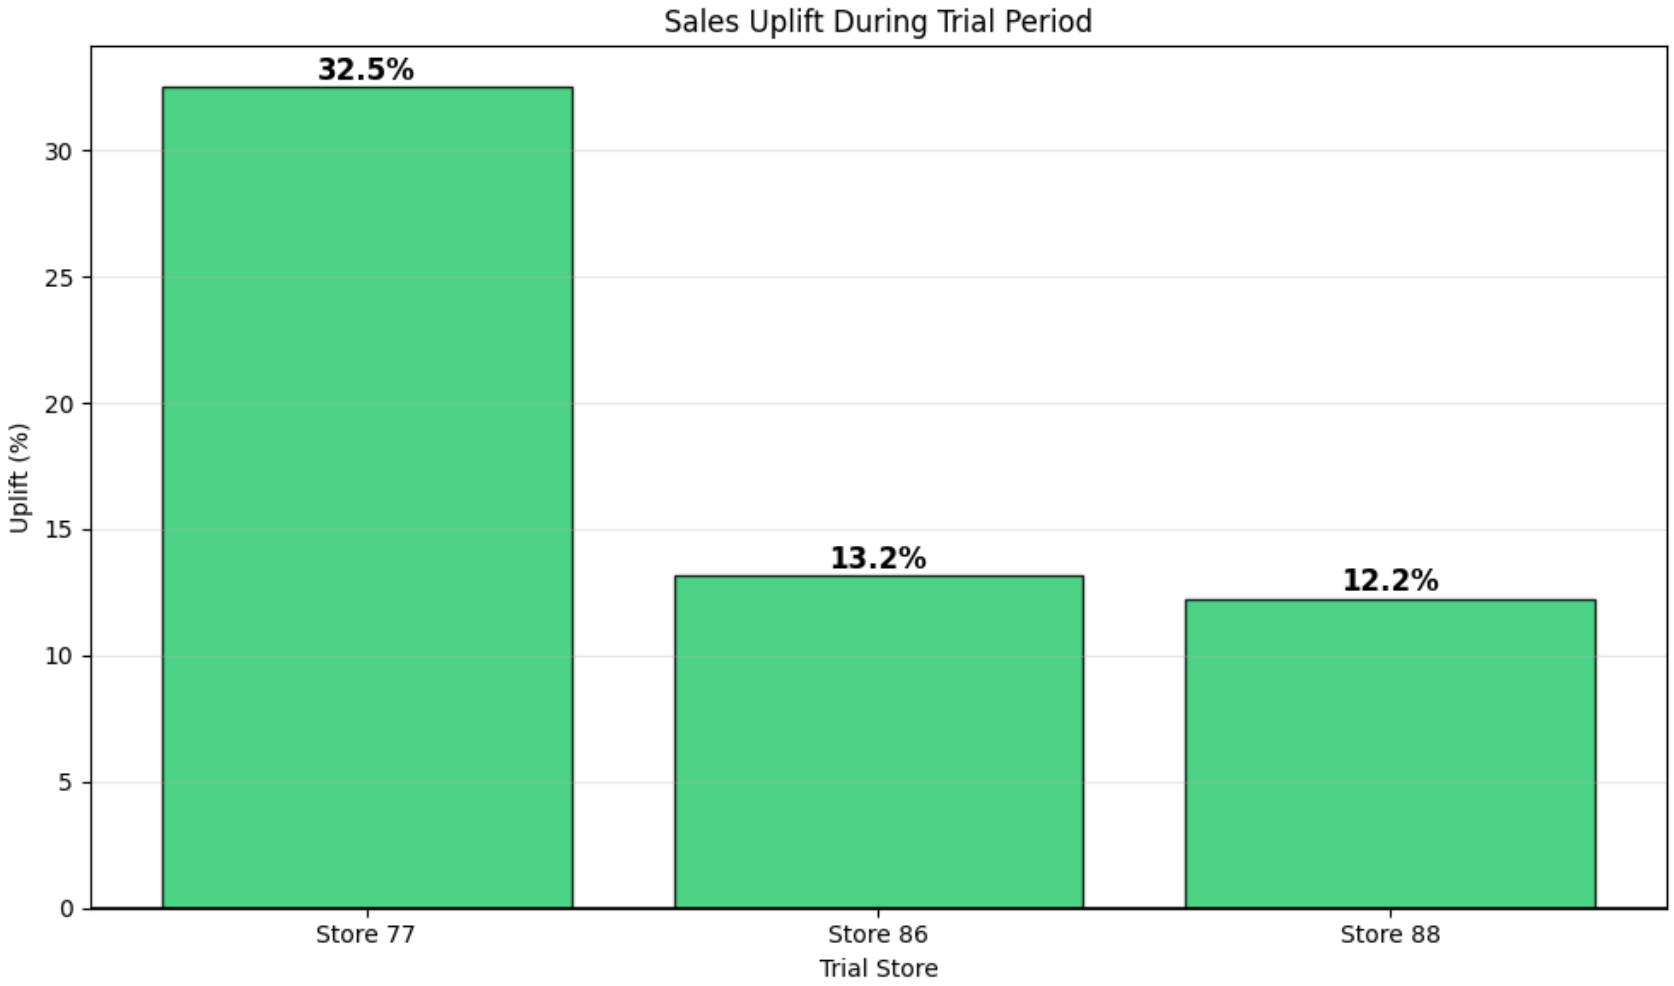




quantium

Classification: Confidential

All 3 trial stores showed significant sales uplift during the trial period compared to their matched control stores.



quantium

Classification: Confidential

Conclusion

- Store 77 showed the highest uplift at 32.5%, followed by store 86 at 13.2% and store 88 at 12.2%,confirming the trial was success across all locations.

- Store 88 remains the most consistent performer showing uplift across total sales , total customers and average transactions per customer.

- The driver for the increase in total sales seems to be the increase in purchasing customers rather than purchases per customer
